

## New Software Release for Ford® vehicles Ford® Bypass ADS209 - Code D747568AD

July 2016

Advanced Diagnostics is pleased to announce the release of ADS209 Ford® 20 byte bypass for the latest Ford® vehicles worldwide. ADS209 key programming software is designed to bypass the security without a dealer login.

### What does the software do?

ADS209 software programs proximity keys with push button start and bladed keys for selected Ford® vehicles and allows keys to be added or programmed from a lost key situation. The software has been designed to bypass the pincode automatically in the background, making it a seamless process when programming keys.

The remote fob programming is performed automatically as part of the procedure when using ADS209.
