

Software Update Key Programming for Renault® 2019 ADS2287 - Code D753916AD

May 2020

Advanced Diagnostics is pleased to announce the release of an update to the Renault® 2019 ADS2287 software for the Smart Pro only. The software is for programming keys on various Renault® and Smart® vehicles worldwide and is the FIRST to do this SECURELY when all keys are lost (including the Renault® Captur and Clio 4).

What does the software do?

The ADS2287 software programs keys for various Fiat®, Opel®-Vauxhall®, Nissan®, Renault® and Smart® vehicles worldwide even in an all keys lost situation. The software will bypass the security pincode during the procedure and will program the remote and the transponder at the same time. The software programs the vehicle key in only 3 or 4 minutes.

All the keys and remotes have to be erased before programming new ones. The Smart Aerial is required for precoding procedures.

What else will I need?

Smart Pro

Smart Aerial

OFFER DETAILS

Cable	ADC2000
Software category	A
Other accessories required	Yes - Smart Aerial for precoding
Other software required	No
