FREE Key Programming Software Update compatible with Subaru*
ADS2255 - Code D752009AD

December 2021

Programme new Subaru* proximity keys even in an all keys lost situation with the free update to the ADS2255 software from Advanced Diagnostics.

What does the software do?

ADS2255 now programs both bladed ('G' type) and proximity keys for Subaru* vehicles without the need of a working key.

The software also covers remote programming and is designed to be fast and easy to use. A maximum of 4 keys / remotes can be programmed.

What else is needed?

Smart Pro
