## New Programming Software compatible with Mercedes* ADS2298

### July 2021

**Advanced Diagnostics is pleased to announce the release of the ADS2298 key programming software compatible with Mercedes* models produced from 1996 to 2014.**

### What does the software do?

The software is designed to program slot keys compatible with Mercedes* models. The software is automatically activated when the Smart Programmer ADC260, required for programming these keys, is connected to the Smart Pro.

A maximum of 8 keys can be programmed with this solution - you don't have to delete existing keys to add new ones. A working key is always required. The security password is calculated in the background by the server - the Smart Pro must be connected to the internet. The 3-button slot key by Silca HU106S23 is also available and features the same infrared technology used by original keys.

### What else will I need?

**Smart Pro**

**Smart Programmer ADC260**

**Slot key HU106S23**

| OFFER DETAILS | |
|---|---|
| Cable | ADC2000 |
| Other accessories required | Smart Programmer ADC260 |
| Other software required | No |
