New Key Programming Software
Fiat*-Alfa Romeo*-Jeep* 2019
ADS2295 - Code D754548AD

December 2022

Full coverage for Fiat 500X & Jeep Renegade**

What does the software do?

The ADS2295 software programs proximity keys for the Alfa Romeo* Stelvio and Giulia and bladed keys for popular Fiat* and Jeep* models.

All keys and remotes will be erased before programming new ones, whilst new keys can be created even in the absence of an original key. The software bypasses the security pincode during the procedure and programs the remote and the transponder at the same time.

The Smart Aerial is require to complete the procedure, whilst no working key or additional software are required.

**Covers both BCM variants

What else will I need?

Smart Pro

Smart Aerial

OFFER DETAILS	
Cable	ADC2000
Smart Aerial required	Yes (for ID88)
Software category	A
Other accessories required	No
