

Key Programming Software Update compatible with Renault* ADS2287 - Code D753916AD

May 2021

Advanced Diagnostics is pleased to announce the release of an update to the ADS2287 software to program bladed keys compatible with the Dacia* Duster and the Lada* X-Ray.

What does the software do?

The ADS2287 software programs keys compatible with various Fiat*, Lada*, Opel-Vauxhall*, Nissan*, Renault* and Smart* vehicles worldwide even in an all keys lost situation. The software will bypass the security pincode during the procedure and will program the remote and the transponder at the same time. The software programs the vehicle key in only 3 or 4 minutes.

All the keys and remotes have to be erased before programming new ones. The Smart Aerial is required for precoding procedures.

What else will I need?

Smart Pro

Smart Aerial

OFFER DETAILS

Cable	ADC2000
Software category	A
Other accessories required	Smart Aerial for precoding
Other software required	No
